

# SirsiDynix

## A Company Background

SirsiDynix is the global leader in strategic technology solutions for libraries – vital institutions whose primary mission is to make sense of the vast world of information for people and communities. This is an exciting role as libraries assist people in discovering and using knowledge, resources, and other valuable content for their educations, jobs, and entertainment. In concert with key industry partners, SirsiDynix supports this strategic role for libraries by offering a comprehensive integrated suite of technology solutions for improving the internal productivity of libraries and enhancing their capabilities for meeting the needs of people and communities.

SirsiDynix was created in June 2005 through the merger of Dynix Corporation with Sirsi Corporation. Both companies have an excellent track record as leading information technology providers to libraries and consortia worldwide.

The company builds on its constituents' strengths while providing more opportunities for technological innovation and growth.

SirsiDynix has approximately 4,000 library and consortia clients, serving more than 300 million people through more than 20,000 library outlets in the Americas, Europe, Africa, the Middle East, and Asia-Pacific.
